Eligible for DFS CEU requirements.

Full refund if cancelled within 7 days. No refund afterwards.

**August 28, 2012**

### 1-Day NFPA 13 Sprinkler System Installation Requirements

There are hundreds of types of sprinklers in use today. Determining where to locate them can be a complex task. They need to be spaced properly and installed in specific locations to ensure coverage of the protected area and located far enough away from obstructions to ensure that the spray pattern can adequately develop and control or suppress a fire. The rules that govern this complex matrix of decisions are found in Chapter 8 of NFPA 13 on Installation Requirements. This fast paced and interactive seminar will guide the participant through series of decisions and requirements that lead to compliance with NFPA 13 and ensure the system will operate properly when needed.

**August 29, 2012**

### 1-Day Fire Service Mains & Their Appurtenances (Underground Piping)

This full day seminar describes the responsibility of the contractor, owner and authority having jurisdiction for the proper installation of Fire Service Mains & Their Appurtenances as addressed in NFPA 24.

**August 30, 2012**

### 1-Day ITM for Water Based Fire Protection

This one-day seminar provides the attendees with vital information related to the procedures and responsibilities for properly inspecting, testing & maintaining a water based fire protection system. The seminar also discusses the various responsibilities of the building owner, contractor and authority having jurisdiction (AHJ) as they relate to the requirements contained in NFPA 25.
